Beaird Dermatology Adds Convenient Onsite, Same-Day Prescription Service

Family-owned practice in Hoffman Estates offers full-service, comprehensive dermatology care with onsite prescription fulfillment.

Hoffman Estates, IL • December 17, 2020 – Beaird Dermatology, a leading Chicagoland dermatology practice, is pleased to announce the addition of its onsite prescription service, offering patients faster, streamlined care. The expansion in services allows patients to be seen by a provider, get accurate lab results quickly, and have a prescription filled, all before leaving the building.

In keeping with its mission to provide comprehensive care and exceptional service, Beaird Dermatology will be staffed with a full-time pharmacy technician. The pharmacy technician ensures prescriptions are filled promptly and accurately, eliminating unnecessary substitutions. The prescription service helps patients save valuable time by treating all their dermatology needs in one efficient visit.

In addition to saving time, the Beaird Dermatology staff and pharmacy technician can work closely with insurance companies to ensure that prescriptions are filled as economically as possible. When available, the staff can utilize drug manufacturer discount coupons for additional savings.

"Having the ability to dispense prescriptions onsite, means we can ensure our patients have the right prescription before leaving and we can even save our patients time and money," commented Dr. Leslie Beaird, practice founder.

The onsite prescription service comes on the heels of an expansion plan that includes an in-house laboratory and additional exam rooms. Reduced wait times for exams and test results, now combined with an onsite prescription service means that patients receive the most complete and personalized care possible.

###

Since opening its doors in 2016, Beaird Dermatology has passionately pursued its mission to provide the highest standard of care in medical, surgical and cosmetic dermatology. The family-owned practice offers on-time appointments, convenient extended hours, and a state-of-the-art facility in Hoffman Estates, IL, complete with an onsite lab and onsite prescription service. Its welcoming, comfortable atmosphere is
